Messe Düsseldorf

Sustainability at a Glance

Messe Düsseldorf: Platform for Strong Brands

Messe Düsseldorf sets markets in motion. At our home base and internationally, we create platforms that bring people, industries, and innovations together. With around 20 world-leading trade shows, we are one of the world's leading trade show organizers. Our expertise spans a wide range of sectors, from machinery and healthcare to retail and services, as well as mobility and lifestyle. As the Home of Markets, we combine future-proof business fields with digital services and a global presence. In this way, we shape transformation reliably and with a clear focus on future-oriented value creation.

Our vision

Events that provide a stage for future topics and are designed responsibly.

Our values

- → Dedicated, Passionate, Ambitious
- → Open-minded, Approachable
- → Cooperative, Reliable, Respectful

Our approach

As a hub for value chains and a marketplace for innovation and discourse, we provide a stage for future topics and bring together relevant stakeholders. We implement measures to promote a more conscious use of resources in event operations and integrate sustainability themes into our events.

Our Key SDGs
